Enhanced Traffic Laws

Installation :

1. download and Install scripthookv + Scripthookvdotnet
2. create a scripts folder (named scripts and not Scripts) if you havent got one already
3. install LemonUI(if you havnt already got it for SHVDN2) there is a download link in the text file of the zip, copy the url into a browser, then a zip will be downloaded, drag the CONTENTS of the SHVDN2 folder into scripts
4. drag TrafficLaws folder into scripts
5. drag TrafficLaws.dll, TrafficLaws.pdb into script
6. drag HKHModHelperNew.dll and HKHModHelperNew.pdb into script if you havnt got it already
7. Launch game
